Shloka from the *Natyashastra* नाट्य शास्त्र

The Significance of a Live Artiste's Role

The Nāṭyaśāstra (200 BCE-200 CE) established the artiste as a fundamental element of the Source's creation.

108 Upanishads | 108 styles of meditation | 108 beads in prayer strings | 108 postures of Tandava
The average distance from the Earth to the Sun is roughly 108 times the diameter of the Sun.

108 has been a sacred figure since time immemorial.

108 has always been supremely significant, it represents the unity and wholeness of existence, so is the role of an artiste, significant.

Live Artistes are the *kalakaars*, the stars who bring live events to life, unifying audiences, event managers and artiste managers.

“EEMA is deeply committed to inclusivity across all member categories. Let’s continue to celebrate the success of our Star Members.”
